I completely agree. Meghan will be able to use Kate's help and provide something a bit more personal.

By the way, I redrafted (still rough) the Stratford Army Engine letter. Before I move it along, I want to get your quick reaction to see if it is more along the lines of what you wanted. It is attached.

Thank you, Bryan

Unfortunately the tone of the draft response is so clinical and doesn't reflect the support that both Senators gave to our PFAS summit and subsequent efforts. Sen. Shahen sent a video and on July 5 Sen. Hassan visited Coakley. I think we need to add language to this letter acknowledging their work – and leadership on the issues – and mention that HQ is working closely with all regions – particularly relevant to them EPA New England – to make solid progress.

Kate, can you draft something along these lines? Right now as you can see they are using a fillable "template letter" which isn't the best direction for the Senators.

Meghan,

Do you have a paragraph already put together summarizing our PFAS meeting? See the response from Barry Breen and the letter he is responding to attached. Deb/Alex, is there anything in particular you would like to include in Barry's

response to Hassan/Shahen? He asked his staff to check in with us following his review of their draft. Thank you,
Bryan

Hi Bryan,

I'm working on a response to Sens Hassan and Shahen on EPA's PFAS efforts. Barry has asked for a paragraph on the Exeter, NH engagement (see his notes in the attachment). Could you help me with this? I'm also providing the original incoming correspondence for reference.

OEM – Please see Barry's attached edits on the subject control. I "disapproved" it in CMS, so that it will come back to OEM to make the edits in the system after you receive input from Region 1. Thanks. Becky
